## Education

**Vellore Institute of Technology, Vellore, Tamil Nadu**  
*Bachelor of Technology in Computer Science and Engineering*

Graduated 2025  
CGPA: 8.72

## Skills

**Languages:** Java, Python, C++, C

**Web & Frontend Technologies:** HTML, CSS, JavaScript, React.js, Bootstrap

**Database Management:** PostgreSQL, MongoDB

**Technical:** Data Structures, Algorithms, DBMS, Operating Systems, OOPS, Computer Networks

## Experience

**Ocius Technologies Ltd, Ahmedabad**  
*Fullstack Developer Intern*

Sept 2023 – Feb 2024

- Developed responsive UI components for a client management system using **React.js**, enhancing user interactivity.
- Integrated asynchronous **RESTful APIs** to fetch and display dynamic data, ensuring seamless client-server communication.
- Reduced code duplication by over 20%** and improved maintainability by refactoring legacy code into modular **React components** and **Hooks**.
- Decreased initial page load time by **30%** by implementing modern **JavaScript** optimizations like code splitting and lazy loading.
- Operated in an **Agile (Scrum)** environment, using **JIRA** for issue tracking and **Git** for version control while contributing to sprint planning.

**ETHNUS, Remote**  
*Fullstack Developer Intern*

Aug 2023 – Nov 2023

- Designed and implemented **RESTful APIs** with **Express.js** for CRUD operations (Create, Read, Update, Delete).
- Secured application endpoints by implementing user authentication and authorization using **JSON Web Tokens (JWT)** and password hashing.
- Created and managed database schemas in **MongoDB**, utilizing **Mongoose** for data modeling and validation to ensure data integrity.
- Gained foundational experience with relational databases by designing a basic schema and writing SQL queries for a small-scale project using **PostgreSQL**.

## Projects

**Meet.AI**

[github.com/meetmovaliya/Meet.AI](https://github.com/meetmovaliya/Meet.AI)

- Built a real-time AI chat platform handling users across multiple LLMs using React, Next.js, Node.js, and WebSockets.
- Implemented a response comparison feature that improved user decision-making efficiency by 30% through multi-response analysis.
- Optimized backend scalability, reducing average latency by 25%, ensuring smooth interactions during high-traffic usage.

**VocalizeIt**

[github.com/meetmovaliya/VocalizeIt](https://github.com/meetmovaliya/VocalizeIt)

- Developed *VocalizeIt*, a Text-to-Speech application using the **Web Speech API**. The application offers real-time text-to-speech conversion with customizable voice options.
- Incorporated features such as **pause and resume functionality**, which optimized playback control and reduced user feedback on usability issues.

## Position of Responsibility

**FEPSI NGO Club, VIT**  
*Design-Head*

Jan 2022 – Jan 2023

- Led a team of over 40 members, fulfilling all creative needs for the NGO, including digital and print materials.
- I managed work distribution, provided leadership, and facilitated cooperation across all pillars of the organization.
